

DataPOS

COMPLETE POINT OF SALE SOLUTION

Add-on for Datapel Warehouse Management System

DataPOS provides the complete retail solution to Datapel System Warehouse Management System. Incredibly smart and easy to use, DataPOS provides a optimized touchscreen Point of Sale solution that will save customers times with fast front-counter sales transactions from the finger tips.

Quick Sales

Sales order entry is simplified and quick with scanning and three touch screen streamline process.

POS Hardware

Compatible with most Point of Sale Hardware including touch terminals, touch screens, barcode scanners, cash drawers, and receipt printers.

Touch Optimised

Onscreen keyboard calculator and a large format display minimises physical or onscreen keyboard dependence making DataPOS highly suitable for touch terminals, monitors and some tablets.

Streamline Processing

Smart Item processing features such as; Percentage or Fixed Discount, Auto Allocate (Pick) Point of Sales Transactions, Single Tender or Account Sale Option, and Automatic Rounding for Cash Payments with clear change notification.

Fully Intergated

DataPOS becomes a part of Datapel System Warehouse Management System. All Point of Sales transactions will appear within the Sales and Despatch Registry of the Warehouse Management User in Real-Time. Users can also seamlessly switch between the Warehouse Management System and DataPOS screens.

Datapel Warehouse Management System Professional or Enterprise Edition are required to run DataPOS.
